Riprap Installation

CJ Brown Dam Riprap Overlay

| | |
|------------------|----------------------------|
| Contract Number: | W912QR-13-D-0027 |
| Client: | USACE, Louisville District |
| Location: | Springfield, Ohio |
| Cost: | \$531,337 |
| Award Date: | 09-29-2014 |
| Completed: | 05-01-2015 |

This project was a Task Order on the USACE, Louisville District SDVOSB MATOC. The CJ Brown Dam had an original Riprap project that was performed in 2008 on the lower elevation.

This project was to add overlay on the upper portions of the bank. In total there were 6200 linear feet of embankment that need Type C Riprap overlay to two feet of thickness.
